FINANCE AND TRADE.

MEMPHIS, July 9, 1869.

FINANCE, there was no new feature in money matters to-day. The extreme bent up: peared to have an offect upon the usually ool and comfortable looking gentlemen who dispense financial favors to those who are in need and are backed up by undoubted collisteral. The weather seemed to inconvenience even them, and they turned over the feaves of their ledgers or ran over piles, or greenlacks in a listle-s manner not at all usual with them.

In Stocks and Bonds there is no more ment. We learned of a sale of M, and C. R. R. stock on private torms, and an offer of \$140 per share was made for \$5000 First National Bank stock. This is a good figare when we consider that the semi-annual interest has just been puld, and the buyer would not receive a dividend before january next.
